About This Game

About Game

Since the first watcher discovered its powers, Eternium was one thing that gave our watchers strength to overcome everything and everybody that threatened our universe. Now, for the first time Eternium itself is in great danger. For the first time watchers secret oath was broken and for the first time ever someone that is not a watcher knows about Eternium, knows how to get there and is one power hungry, malicious, cruel witch.

Gameplay

The Game is inspired by epic fantasy itself and tower defense games. It is an endless wave based shooter which combines different game genres.

You are not alone

Play online with up to 4 other people that can join anytime. The game scales based on the number of people playing which makes it easier to play the game the way it's meant to be played - in multiplayer.

Unique characters

Play as one of distinct characters with unique abilities:

-
- Wizard - master of elemental forces. Sunglasses included because casting shiny spells is bad for your eyes.
 - Gunslinger - dual wielding gunner. Has a hidden passion for exploding things which he doesn't hide very well.
 - Archer - master of bow and arrow. Firearms are overrated.
 - Tinker - The Unstoppable War Machine.

Upgrade yourself

Use our session based upgrade system with unique upgrades for every character, as an tool to destroy even more foes.

Enemies mean business

Each enemy presents a dangerous foe - some of them will attack you, some of them will wait for your attacks to turn them against you and some of them will increase the morale of other enemies and significantly speed up the pace. Others are visceral flyers that aren't interested in the objective as much they're interested in destroying you.

Endless waves

See how long you can hold out against the relentless invaders and compete for the top spot on the **global leaderboard** as waves get increasingly difficult.

I loved this game! Great story, mystery kept you guessing, and the art style was simplistic but so beautiful. You can check out my play through here:

https://www.youtube.com/watch?v=0bmSEkBEbEI&list=PLKeaE7G_ZkDIriEh4xNygVld6oiskLc-n. Tookis and the booty biker boys made my heart soar. A psychedelic romp where you make fast friends. The developer is a real kind dude too, and I think that comes through in the game. I want a monster garden sequel! Where you can tend to your little homies day-in and day-out like Animal Crossing.. No sound.

Terrible gameplay.

Gross.

<https://youtu.be/V8PZeRtO2pqq>. good gayme ♥♥♥♥♥. i launched HOTW throug the steam but it starts normal red orchestra i cant find any map what am i doing wrong?. I Tried to set up the controls! this and the interface was diabolical! this annoyed me so much I quit and restarted!

[Then the in game controls itself are terribly unresponsive!](#)

[All in all I had the game installed for about ten minutes before asking for a refund!](#)

[I Wish Steam would start putting a Made With Unity warning label on these products!](#)

[. Nemesis is a great addition to the Sherlock Holmes series. The story of Holmes rising to the challenge of a criminal adversary is familiar to any fan, and this time it's the gentleman thief character Arsene Lupin. Lupin is a truly interesting character, which makes solving his thefts a fun task. The story does have its weak spots near the end \(The ridiculous thing with Queen Victoria, not to mention what happens when you actually catch him...\) but they aren't enough to take away from the game's overall value. Personally, I think Nemesis is the best game of the series so far.](#)

[Graphics and gameplay wise, Nemesis is nearly identical to Awakened. The hint system is much better though, which is helpful since the puzzles in Nemesis tend to be more math related. Though math puzzles may sound daunting, the puzzles are actually quite fun this time around, and the option to use hints eliminates any ragequit frustration. There is quite a bit of backtracking in the museum section, but you can use the fast travel system to get between areas quickly.](#)

[Also, Creepy Watson has been fixed. \(un\)fortunately.. Great throwback to the good old NES era.. starts like a hapy fun game but the becomes a depresing fun game but still fun 10/10 hope the creator updates it make a triquel or makes a tottaly new one and is a good idea too revisit level 100 when you beat it](#)

Nice graphic and challenging puzzles. The control are great and also can be inverted in setting. Even it's hard to get full stars on certain level but I enjoying this game.. In a game where mechanical execution is the entire game, why play anything that's not the best?. It's really just a bunch of images and what not that shows people bonding together.

Music and illustrations are well done.

There is no gameplay and no story. It's a relaxing experience that can be completed in around 2 minutes.

Give it a go if you have nothing else to do; it is free after all.. its incredibly laggy on my pc, i dunno other than that its pretty fun.

[Very cool, but very specific game. If you are a mathematician, programmer, roguelike fan or just a nerd, most likely, this game is for you. Otherwise... Anyway, if you're not outright scared with the concept of killing ancient beasts with the power of math, you should give it a try.](#)

[You can start with the free version. Keep in mind, though, that free version lacks some recent and/or steam-specific features.](#)

[P.S. Sorry for my poor, google-powered English.](#)

[P.P.S. This is my very first review. Yes, that game is awesome enough to make me do it.. Best fighting "Super Smash Bros" like you could find.](#)

[The skill cap is insane, it feels incredible, and a small but active community !](#)

[A must have even if you'll need a LOT of practice before reaching a very good level, but ressources like Discord channels exists... HAVE FUN !. Amazing first person platformer indie gem.](#)

[Pros.](#)

[Very cheap.](#)

[Amazing soundtrack ,visuals, overall amazing aesthetic.](#)

[Gameplay feel like liquid lightning fuzzing in your hands](#)

[Cons](#)

[small comunity](#)

[10/10 would buy again. Everyone shold try this game \(not spon\). I need the server back!. rather short, yet amazing and challenging platformer.](#)

[Also the music's pretty good.](#)
